

Bernie

— FOR PRESIDENT —

Campaign Finance

For more than thirty years, Sen. Sanders has been a staunch advocate for real effective campaign finance reform that reduces the influence of special interests and corporations.

Financial Reform

Bernie believes we should break up the giant financial institutions and banks that pose a systemic risk to the financial system and the economy as a whole.

Civil Liberties

Bernie strongly believes in the constitutional rights of all Americans which make this country great, and those rights should not be sacrificed in the name of security.

Health Care

Sen. Sanders is committed to ensuring that every American has a right to free access to quality health care in their community.

The Economy

Bernie believes that the true greatness of a country is not measured by the sum of its millionaires and billionaires. Rather, it is one in which justice, equality and dignity prevail for all.

Seniors

Bernie stands firm in his fight to protect Social Security, Medicare, Medicaid, and the other programs that help seniors remain healthy and independent.

Education

Sen. Sanders believes every person should have access to the best free public college education regardless of their location, income, gender, religion or race.

Infrastructure

Sen. Sanders believes we must make significant investments in our nation's roads, bridges, and transit systems for the United States to remain economically competitive.

Veterans

Bernie is committed to provide the best quality care possible veterans, and is determined to ensure the VA is meeting this responsibility.

Workers' Rights

Bernie is committed to see that workers have a fair living wage by raising the minimum wage to \$15 an hour.

Energy & Environment

Sen. Sanders has, and will continue to, fight for progressive energy policies and increase environmental protection, and is determined to find solutions to end the serious issue of climate change.

Creating Worker Co-ops

Instead of giving huge tax breaks to corporations which ship our jobs to China and other low-wage countries, we need to provide assistance to workers who want to purchase their own businesses.
